What makes "Silent Circle" such an interesting application is that you don't even have to set up your device to use it. The application can automatically download the communications that you want to securely share, to ensure that no one, not even the company that provided the software, will have access to your data. Not only does the app store your data, but it can send them via messenger, email, Twitter, and LinkedIn. The first generation of the app only allowed you to share with a single person, but now the second edition also allows you to share with a group, so you don't have to share with everyone. With the new version, the app can also make your content and photos disappear if you
