This program is an attempt to provide a very simple, lightweight, and flexible sound editor for OS/2. It is based on the use of a remote machine to play synth sounds through the KAOSS machine. KAOSS is capable of producing a wide range of sounds from simple wavetables to keyboards, drums, and many other types of instrumentation. Samples for KAOSS are stored in a Sample Manager, accessed through the main menu. The Main Menu is split into three main tabs: Library, Sample Display, and Sample Editor. The Library tab contains the default set of KAOSS samples. Each of these samples contains sounds that can be played by the KAOSS machine via the KAOSS Remote Machine plug-in. The Sample Display tab contains a viewing window of the currently loaded sample, a list of Sample Manager files, and the name and size of the Sample file. The Sample Editor is a standard sound editing program with a number of sound editing tools, such as a waveform editor, a pitch editor, and a mixer. Additional features include crossfading between multiple tracks, the ability to transpose a sample by various numbers of semitones, a wide range of synths, a range of effects, and a menu-driven MIDI synthesizer. All sounds are recorded in standard midi format (.mid) files. Download Links for Csound 5.1.3: Price: Free. Version 1.0.3 for 2000 OS/2 and OS/2 Warp. Quick Installation Guide: What is KAOSS? The KAOSS machine is an instrument that allows you to play and control various types of instruments. It is capable of producing synth sounds and other sounds. The machine contains a synthesizer with 48 preset sounds. These sounds may be edited using a number of sound editing tools. In addition to a synthesizer, KAOSS contains some sample libraries. Each sample library contains a number of samples for different types of instrumentation. By loading a KAOSS Samples into the library, you can play a number of sounds through the KAOSS machine. Features of the KAOSS Machine: -48 preset sounds -Instant access to these sounds -A Sample Editor -Samples can be edited by use
