
Free !!BETTER!! Download Cambria Math Font Windows

The explanation below is based on a Microsoft web page. Linking to the Cambria Math font may not be necessary, but there are some characters that are preferred. In fact, there are other, different fonts that may be preferred for this application, and which are preferred in some cases, but I would have to use more characters; I couldn't find much in this regard. This is just my personal taste and I personally found this font style quite attractive. If you can't find the font you need, you can use Microsoft Sans Serif, but make sure it's properly installed; otherwise, you'll get errors.
