What's New In?

HD Book Organizer is a database program that allows you to create a catalogue of books that you've ever read and manage the books that you own. To add or remove book entries you can use the add and remove button that displays on top of the application, you can also use the context menu to add or edit a single entry or select several books at a time. There are handy tools that allow you to enter or print the information for the book, remove book marks, or favorite books and set a bookmark. As you create your books you can select the format that you'd like to use in order to format the entry. You can also use the help interface to sort out the different features of the application and make some edits to your book entries. There are many pages of information included in the help feature, and there is an extensive manual as well. Set your bookmarks You can also rate the book and assign it to a category using the help menu or use the context menu. You can then insert the image of the book, change the category and mark the book as favorite. You can then access those books any time using the bookmark function.
