EyeAuras Free

EyeAuras is a Windows utility that allows you to clone any open window or resource (Webpage, Movie Player, Music Player, Database, etc.) and keep it on the top of your screen to just see. No need to maximize or switch to another window, just bring the "clone" to the top of your screen. You can increase or decrease the size of the clone, change the transparency of the clone, move the clone to a different screen, etc. You can also do all that with the "Move" command or with the right-click menu. You can quickly clone one window by holding Ctrl+Left-click (or Cmd+Left-click on Mac) on it, a second window by holding Ctrl+Right-click (or Cmd+Right-click on Mac) on it and so on. EyeAuras: Screenshots: EyeAuras: Screenshot: EyeAuras: Videos: Note: When I used it to clone a YouTube video, it just created a screenshot of the video. FILED NOT FOR PUBLICATION MAR 21 2011 MOLLY C. DWYER, CLERK UNITED STATES COURT OF APPEALS
