Treasure Box is a powerful tool that can be used to organize your items. You can add a detailed description and an image for any item from the list and store it in the database. This tool uses a MySQL database to store the information about your projects. You can organize items into a tree and assign an importance to them. You can rename items and add custom tags to any item. It also allows you to change the appearance of the application according to your needs. You can set a background color, font color and text size, and even use transparency to make any part of the application less visible. The application includes a powerful search engine to quickly find any item. It can be used to locate a property, a company or anything else you need. You can use the search engine to add tags or keywords to the items and organize them. With the help of the application you can also search through the items in order to find the specific one. This application helps you to organize all of your different projects, contacts and items and store them in one place. You can find them easily and use them as you need them. You can also print any item from the list and store them in a file. AppSumo A Windows native application to filter apps by categories and keywords. This application uses Google's advertising service to display and store relevant app reviews. Android File Transfer A simple app to transfer files between devices. This is a standalone file transfer app that can work with other apps like DropBox and Box. This app does not require user accounts to use it. Droid Connect Droid Connect is an application that can share your phone and tablets screen over Wi-Fi. It is free and can be downloaded from the Google Play store. OneDrive for Mac Microsoft's cloud storage service OneDrive allows you to save your files online. You can access your files with a cloud based app or use them to sync between your PC and mobile devices. OneDrive Mobile Microsoft's cloud storage service OneDrive allows you to save your files online. You can access your files with a cloud based app or use them to sync between your PC and mobile devices. Reader Android app to get thousands of free books, magazines, and newspapers for your Android device. SkyDrive Microsoft's cloud storage service SkyDrive allows you to save your files online.
