
Jp1082 Usb Lan Driver

March 17, 2016 - I found that many people are looking for a driver for JP1082 USB TO LAN, but they only download fake drivers. I did this because those drivers were fake. I wanted to make sure it wasn't fake, so I made this post so anyone else could know about it. I also wanted people to know that the JP1082 driver doesn't have any issues so it's not compatible with Windows 10. JP1082 is the original USB driver. If you have installed a USB driver that is not compatible with Windows 10. You can let us know in the comments and we'll send you an update.
