Active Fitness is an app that, unlike similar apps out there, is built for transportation enthusiasts. This app has a built in GPS tracking system, and accurate 2D and 3D mapping that allows you to plan your travels ahead. Once you have arrived (or even during your journey), you can take photos and upload them to the app, and they will automatically be location-tagged, similarly to Google Maps.

Active Fitness Description:

Active Fitness is an app that, unlike similar apps out there, is built for transportation enthusiasts. This app has a built in GPS tracking system, and accurate 2D and 3D mapping that allows you to plan your travels ahead. Once you have arrived (or even during your journey), you can take photos and upload them to the app, and they will automatically be location-tagged, similarly to Google Maps. If you don't have any friends that use this app, you don't have to

worry since Active fitness has a cross-platform component that allows you to share your accomplishments on other social media platforms as well, such as Facebook, Twitter or VK. Keep track of all your journeys easily Every time you travel or go on a hike and check in with this tool, it will keep a log which you can later review. It goes without saying that this improvement in lifestyle will come with some benefits, such as weight loss, which you can also keep track of. You do this by first inputting your weight goals, and Active Fitness will constantly remind you how close you are to reaching it. If a sense of competition or seeing how close you are to your goals are no longer enough, then you can create plans (like running 5 km or 20 km cycling runs), to keep you motivated. A great utility for better health, meeting new people and traveling Active Fitness impresses with the sheer amount of features it brings to the table, some of which have not been seen on other similar software solutions. And the fact that there are so

many of them all in one simple package make this app an excellent addition to anyone that wants to endorse a more active lifestyle. Personalized fitness, dieting, and wellness tracking experience for busy individuals Active Fitness is a fitness app, dieting, and wellness tracker developed with an emphasis on real-time feedback and a fitness community focused on supporting each other. The app was built with a focus on empowering busy individuals to achieve a healthier lifestyle. Active Fitness features integrated activity and dieting monitoring

What's New in the?

If you would want to change your life around, introduce fitness and traveling to your life, then Active Fitness is an app that will help you do just that. The basic features of Active Fitness include: - GPS tracking - Map view - Followers view - Timeline - Statistics - Friends view - Social media - In-app purchase The GPS tracking Active

Fitness comes with built-in GPS tracking. This means that you can get all your travel information from the app itself, and do so when traveling or going for a run. You can add your own roads, routes, distances, run length, and calculate your route. It is also possible to turn Active Fitness on or off. Active Fitness has a separate setting to avoid battery consumption while it is not in use. The map view Active Fitness allows you to see where you have been. You can see where your friends are, how far they have traveled, and what their physical conditions are. You can also track your followers. This is useful when you want to see exactly what they are doing and whether they are meeting their goals or not. Active Fitness allows you to create an event or a journey for your friends, but the most interesting thing about this software is that it is compatible with all devices. This means that you will not be limited to just use it on your phone, but you can also use this app while traveling. The timeline view This is

perhaps the most visual feature that Active Fitness provides. You can see how you have changed and how you have improved throughout the time. It also makes it easier to see your new goals. If you are too busy and just need a way to keep track of your life, then this is your software solution. Everything that you have changed, tracked, and accomplished is located in a timeline. You can scroll around, sort, or even zoom in on your favorite sections. The statistics view Active Fitness features a statistics view. This is the best place to track your progress. This feature allows you to enter your goals, track your journey, and see how close you have been to reaching them. If you want to switch to another section, just press on the statistics view. The friends view This is where you can view all your friends and what they are doing. You can share your journey and photos with them, which will motivate them to follow in your footsteps and make the same change in their life. Active Fitness offers a built-

System Requirements For Active Fitness:
