1. Field of the Invention The present invention relates to a speech synthesis method, a speech synthesis apparatus and a program product and more particularly to a speech synthesis method and a speech synthesis apparatus for synthesizing a spoken word from a speech. 2. Description of the Prior Art In recent years, development of a natural language processing technology is being made along with progress of computer science. There is a growing demand for a user-friendly information communication apparatus, and in such a situation, it is desired for a speech synthesis technology to realize a word expression in a human-like manner. A conventional speech synthesis method forms a sentence using a space character contained in a word (refer to U.S. Pat. No. 4,276,886). According to this prior art, a space character is recognized to obtain a transcription. The transcription is then connected to other characters. The conventional speech synthesis method, however, can only realize a natural language expression to a certain extent since it needs a user to input a space character. Japanese patent laid-open publication No. 62-8507/1987 discloses a sentence forming method. According to this prior art, when an input word includes two words, one of which is a particular name, the other word is converted into a specific word with respect to the particular name. A space character is formed if the specific word is not recognized. According to this prior art, words are connected but a natural language expression cannot be formed since the connected words are simply given. In view of this, an object of the present invention is to provide a speech synthesis method, a speech synthesis apparatus and a program product which can realize a natural language expression to a certain extent. Another object of the present invention is to provide a speech synthesis method, a speech synthesis apparatus and a program product which can increase the degree of freedom of a sentence formation. ## What's New in the Adobe Photoshop CC 2018?

"Le anniversaire du MOF", c'est en tout cas ce que certains entrepreneurs souhaitent célébrer ce dimanche soir à Monaco avec la 5ème édition du "speed pitch". La crème de la crème du business en ligne? L'impératrice Catherine Diana, la directrice générale de Recruit.com, Tandou? La touche d'humour à la Française dite "Madame c'est moi" rafraîchit pas mal la rencontre? La présidente de la Fédération Française du Commerce Parfait, Thierry Bilan? La star internationale anglaise de la nudité propriétaire de Etamites? Il y a plusieurs personnes de la classe. Ce qui fait le décor c'est la patronne de Monde 24 Heures, Josseline Fer, qui est venue voir de ses propres yeux ce que ça c'est. Malheureusement je n'ai pas pu être ce soir dans le vaste monde de la crème du business web pour me faire un petit tour, ça me ferait plaisir ça, me disait-elle à l'entrecuisse et se tournant vers les jeunes entrepreneurs, il y en aura des beaux jours pour vous dans ce monde! Ces jeunes entrepreneurs réunis autour du speed pitch se nomment Julien Chatel, Fichta, Romain Pourra, Aurélien Celler, Fleurien, Evelyne Rosenfeld, Guillaume Hochart, Morgan, Stéphane Sagnier, Miek Schaep, Salomé, Thomas Poignard, Teresa Pallentin ainsi que moi même, Daniel Tulgais. Pendant que les groupes se réunissent pour faire les petits arrangements, Thierry Bilan présente "sur les commentaires" ses rêves d'avenir, dont celui de voir des "jeunes entrepreneurs partager les réalisations de leur entreprise grâce à des milliers de partenariats avec des
