Comments i had mine and it seemed to do what i wanted it to but i dont remember a way to put it on my comp yet. In life i am happy to learn and i am always on the look out for ways to improve my systems. I don't think you can make it work with a free account, I've emailed support and asked. Fork me on github if you want to tweak the addin. it is

well commented and should be fairly easy to understand. they both seem to be working pretty well. You need to login to Live messenger. Then in "Messenger History" you have a button to "Add" or "Edit" current message. After that you add a new message to the feed, and every time you login you'll see your messages updated. the problem is the preview of the new post on FF4 is a little buggy. But other than that it seems to do the job. "I am an old reporter and my by trade was computer tech..." -- Ina Garten I can't make it work. I am receiving a "1264:Could not find a valid profile" or similar error. I checked
