## **System Requirements For SQL Server 2014 Reporting Services Add-in For Microsoft SharePoint Technologies:**

On July 1st, the team has released version 0.8.0 of the beta build. This is the first pre-alpha build to feature actual builds, not as yet unfinished game modes. Please note that this is still a very early alpha, with only a single PvP map available, and with all builds including player models, animations, and sounds still under construction. The build is also still unfinished and may break at any time. In a nutshell, the most important issues are as follows: \* Difficulty in building infantry buildings (while also
