Super Lake Screensaver PC/Windows

The screen will display a beautiful view of the lake on your screen. The picture may change every 2 minutes. So be the first to see the next picture. Super Lake Screensaver will use your computer resources only to switch between the picture of lake and the place where the lake is displayed. When you click on the picture of lake, your window will be minimized to a tray. When you click on the tray, the screen will return back to the desktop. The interval to change the pictures of the lake can be set. There are three settings for changing the picture of the lake. *Please note that the setting by default is set to switch every 5 minutes. *The last setting changes the picture in 6-second intervals. *The installation and use of the program is 100% Free. With this screensaver, you'll have the great pleasure of seeing a beautiful view of your country, the USA. Whenever you close the application, the view will disappear. But to enjoy the view for a longer period of time, you'll have to increase the interval of your screen saver. When you click on the screen saver, the window will be minimized to a tray. To get the window back, you'll have to click on the tray. This screensaver's banner display will rotate between the map of USA and the sky and you'll have the wonderful view of the sun. To change the intervals of changing the display of the banner, you'll have to change the value of the two options in the Banner Screen Set Configuration of the screensaver. The screensaver displays a beautiful and calm view of

the ocean on your computer screen. When you click on the screenshot, the window will be minimized to a tray. You can bring back the minimized window by clicking on the tray. When you close the program, the picture will disappear from your computer screen. SuperSky Screensaver Description: This screensaver will enhance your computer screen with a beautiful view of the ocean. The pictures can be changed every 2 minutes. When you click on the picture of the ocean, the window will be minimized to a tray. When you click on the tray, the desktop will return to normal. The views of the ocean can be changed according to the two options in the Banner Screen Set Configuration of the screensaver. With this screensaver 6a5afdab4c
