How do I access the package storage path from within the package? I'm creating a package for a laravel site and I want to access the app's storage path which will hold the compiled js/css/etc. file contents. storage path is defined in the app() method within composer.json like so: "files": ["vendor/laravel/framework/resources/assets/js/app.js", "vendor/laravel/framework/resources/assets/css/app.css"] and the package has a composer.json like so: [3e33713323
