What's New in the ReliefJet Quicks For Outlook?

ReliefJet Quicks for Outlook is a reliable add-in for the email client that enables you to set a series of automatons and shortcuts for quickly composing messages. For instance you can enable automatic deletion of read messages, quick warnings, quick folder access or attach notes to

messages. Automators and shortcuts ReliefJet Quicks for Outlook brings a collection of functions to your email client, that enable you to customize the behavior of your inbox. For instance, the Quick Tweaks function allows you to activate/deactivate automatic message deletion of messages marked as read, set default zoom for message windows or automatically convert HTML, plain text or rich text for format

replies. The add-in can prompt quick warnings when you are about to send a message without title, or reply to messages addressed several recipients. With Quick Folders, you can instantly search through Outlook folders and open the selected one or move/copy Outlook items. Additionally, you can set the Quick Text window that allows you to create shortcuts for template messages, then instantly insert them into the email text.

Attach short notes to emails
ReliefJet Quicks for Outlook
allows you to add quick notes to
an email you are about to send or
save. Simply click on the
function on the ribbon and
customize the message.

Additionally, you can easily
search for the desired note.

Moreover, you can easily copy
the attachment names to the
Clipboard using the context
menu. Moreover, the add-in
allows you to generate and export

reports on the current views of the Outlook folders. You can use a series of report templates and save as many files as you wish. The software can generate reports compatible with Microsoft Excel. Useful new functions for your email client

With ReliefJet Quicks for Outlook, your email client receives a series of useful functions that enable you to reduce the time spent composing emails, sorting or deleting them.

Additionally, you can repair hyperlinks, embed pictures in replies, keep categories when sending messages or set a custom folder for attachments. What's new in this version: V1.0.4 - 1 Sep 2017 ReliefJet Quicks for Outlook - Version 1.0.4 With this update ReliefJet Quicks for Outlook adds a series of useful new functions for your email client. These new functions include the ability to show Quick Picks in the new Quick Text

window, to keep previously used categories in the view settings and to repair hyperlinks in the body of emails. What's new in this version: V1.0.3 - 21 Feb 2017 ReliefJet Quicks for Outlook - Version 1.0.3 With this update ReliefJet Quicks for Outlook fixes several bugs and adds a series of useful new functions for your email client. These include the ability to automatically reply to emails based on read status, a fix for

Microsoft OneDrive mail options and to move and copy Outlook items
