1. 1. Many adults wish to record important family events, such as birthdays, milestones, and anniversaries. In addition, they might be interested in sharing these events with family and friends. But how? Live video recording becomes expensive, and hard to integrate into other programs. Even so, most people have a camera or camcorder, and a computer running Windows. Family Capture (FF) provides a means of sharing these memories.

You can capture every moment of your family life in your very own video journal. Family Capture has been totally redesigned to make it even more easy for you to make your own video record of the moments that matter in your life with a minimum of effort. With the totally redesigned interface it is easier than ever to capture and share the moments that matter the most, such as birthdays, holidays and milestones, with all your family and friends. Family Capture is a video and photo journaling tool for

Windows. It allows you to record your family and friends life in four ways: *Time-lapse. *Record your life. *Capture the best moments. *Sharing content. Family Capture is free to use. There are no restrictions, limitations or hidden fees. Your lives moments are yours to keep forever! What's new in this version: *A completely new interface. *Increased reliability. *Support for SD, HD and 4K video files. *Added support for videos in FCPX and Premiere Pro. *Fixed a crash that could happen if you

deleted a channel. *Fixed several issues with the File Transfers tab. *Fixed the "Error opening the selected photo." message. *Fixed the "Capture cannot be started" message. What's new in this version 4.0: *Added support for the new 4K HD video. *Added support for direct uploading to Dropbox. *Improved reliability and stability. What's new in this version 3.3: *Introduced a "Recording" and "Liveview" window. *Added the ability to play back and record videos and photos. *The individual

video and photo file sizes have been reduced. *Added the ability to take screenshots. *Added ability to change color schemes and backgrounds. *Added a new folder selection window for photos. *Minor bug fixes. What's new in this version 3.2: *Minor bug fixes. What
