---

Matches. Leagues - this mode is the heart of FIFA Ultimate Team, and is the only mode in Ultimate Team that is compatible with FIFA 21. The mode features 64 leagues with 4 cups, tournament play, and progression in which to climb up the global leaderboard. Friendly Matches - these matches can be played by teams of 10 or 12. The game mode incorporates content from the community to create unique and satisfying matches that are easy to get into and simple to play. Tournaments - these matches are a great way to gain Ultimate Team points and items, as you aim to defeat the other participants in the tournament and climb the online leaderboards. The tournament matches are based on a number of cups, with 32 trophies each, and there is a prize pool to be won, based on the players you defeat! Season Matches - this mode is where you can play your Ultimate Team matches against FIFA and club legends. These matches are hosted by FIFA superstars like Ronaldo, Zidane, George Best, and Diego Maradona, and come with updated content and new modes. The most important thing to remember about both gameplay modes is that they are all based on community feedback. Both playtest and survey results were very important to the development of Ultimate Team, and we want you to have the best experience possible using this mode. POSSIBLE MAJOR CHANGES - There is the possibility that the Beta we've provided to players will be different to what the final game will be like. As the Beta is an internal test, there may be changes made which we are yet to finalise or announce. You will be informed if we decide to make a major change. DIFFERENT REGION & COUNTRY The Beta may not be in the version of the game which you are playing. If the Beta takes place on a different server to your version
