HyperMotion Technology, which is available in the new Pro Clubs game mode, is used in three key areas of the game, including: Physical Motion & Physique. This system applies player-specific physics, movement and control dynamics through a combination of key physical elements and data-driven techniques. For example, FIFA's breakthrough dribbling system allows players to step, run and decelerate more naturally without the need for exact timing. This new system introduces a new AI-controlled movement behaviour based on incoming player movements. For example, players adapt their passing behaviour based on their situational awareness - they pass closer to their teammates in dangerous areas and attempt to clear the ball out of tight spaces. Fifa 22 Activation

FIFA is back. Bringing the beautiful game to life at the highest possible fidelity. Building on last year's iteration, FIFA 22 introduces new features to the soccer world and lets you play the way you want - with new-found control in all facets of the game. FIFA's new football engine - Powered by Football The new generation football engine is at the core of FIFA 22 and is the centerpiece of a substantial FIFA overhaul. This engine's new, completely re-written physics system means players behave more naturally and play the game in a way that matches what you see in real life. Whether it's an overhead kick, a low-cross or a thundering header, you'll be the master of your field! Whether it's an overhead kick, a low-cross or a thundering header, you'll be the master of your field! Some of the keys to the engine's new physics are further control over player movement, defender aggression and, most importantly, the tactics and strategies you use to defend and attack. Defending and attacking all comes with new dynamic moves and set-plays, allowing you to throw your defenders in the right direction to cover the gaps in your formation. The new physics engine has fundamental gameplay implications across all five game modes, from the comprehensive overhaul of the new FIFA Ultimate Team™ mode to the addition of a new Homicide Mode™, which dictates how the game plays when there's a clear and obvious foul. Ultimate Team™ has been given a much-needed facelift, with new player animations and new moves included to better make your players look like the real deal. And the revised Making History feature adds a multitude of new options to create your own unique Ultimate Team builds. And in the Create-a-Player feature, you'll be able to make a very popular Ultimate Team™ player look like the real deal. With over a dozen new looks, from athletic to slender, and an eye-catching array of alternate colorways, you'll find plenty of ways to personalize your team with the Create-a-Player feature. The new motion-capture technology will even let you take a much closer look at your favorite players - including players who play on other teams! Now you can take a stroll around the pitch and get a feel for the speed, technique and style of players that you're bc9d6d6daa
