i have already tried thisQ: Open and remove the folder containing the edited file in Vim I have the following folder structure: /home/user/my_dir/myfile.txt I have run the following command in vim :e /home/user/my_dir/myfile.txt The window opens, editing the file in vim, and the folder my_dir appears in the status line. But the folder never disappears, and so when I exit Vim with ZZ the folder remains open. Is there any way of creating the folder again, or can it be removed with one command? A: Press q to exit :edit, not ZZ A: To force q to exit :edit, while removing the directory of the file: :unmap ZZ :sleep 15 :map ZZ d :wqa This will remove the directory my_dir in less than 30 seconds, as long as you do not have any plugins manipulating these mappings. A novel technique for

the serological diagnosis of hepatitis A virus infection. The authors describe a technique using protoplasts transformed with an in-vitro-produced hepatitis A virus (HAV) antigen. This antigen was used to develop an in-house HAV antibody assay which is rapid, sensitive, specific and has high reproducibility. The test also proved useful in the diagnosis of acute HAV infection in mice. Subscribe to Email Updates YouTube Is Baffled Over Fake Ed Sheeran Content Ed Sheeran has been accused of being the victim of one of the most high-profile takedowns yet over fake uploads of his videos to YouTube. Last Wednesday, video-sharing website removed over 45,000 spurious Ed Sheeran-related videos, mostly uploaded by U.K. users, from its site. "We have been made aware of a small number of videos that have been created to appear as if they were uploaded by Ed Sheeran through a process called deeplinking," Google said in a statement. "We have removed these videos and we are removing this type of activity on our site. We are continuing to work to prevent misleading content from appearing on YouTube." YouTube has seen a rush of deeplinking content since another artist, the late Michael Jackson, was famously deeplinked in
