“This is the biggest challenge we’ve faced with FUT since we introduced online games in FIFA 16,” said EA SPORTS FIFA Lead Game Producer Matt Papa. “Just under an hour of data is needed for us to accurately determine the player’s movement and performance. We then work on re-skinning the player, using that data, and rebuild the player model with animation and physics. In terms of returning to the game modes, we now have everything to work on in the same way.” PAYDAY 2 is now available on Xbox One via the Xbox Games Store, in select markets (UK, France, Germany, Italy, Spain, and Sweden), and on PC, in all regions. The Xbox One version of the game will be supported for five years and deliver three main updates during this period. Sony has already confirmed that PS4 is getting PAYDAY 2 upon launch in North America. PlayStation 4 is the home of business, with a new PSN network and PlayStation Vue (coming Spring 2017) adding choice in how people can spend their time and money. PlayStation 4 is backed by a massive online gaming library that spans thousands of titles and online gameplay with PSN. Pro Evolution Soccer 2017 is scheduled to launch later this year. IGN recently asked Sony’s Head of Product Marketing, Jim Ryan, to discuss the changes to PSN. Here’s what he had to say: “Being the home of business, PlayStation is a console that has supported business for a long time. A lot of that is around PlayStation Vue, which is a type of over-the-top bundle, where it is a service that people can subscribe to.” “We’ve done our homework on that. The PlayStation ecosystem is like the iTunes environment for music, we

Liposarcomas are very rare tumors and approximately 40 cases of retroperitoneal liposarcomas have been reported to date. We encountered an extremely rare case of retroperitoneal liposarcoma mimicking ureteral tumor during pregnancy. A 34-year-old woman at 26 weeks gestation was admitted to our hospital complaining of nausea and hematuria. She had no history of pelvic surgery, radiation or other diseases. A physical examination revealed that the lower abdomen was distended and the uterus was enlarged. Blood test results showed mild anemia and an elevated C-reactive protein (CRP) level. A transabdominal pelvic ultrasound examination showed a hypoechoic mass with attenuation in the lower abdomen at the retroperitoneal region. Ureteral dilatation was observed at the left side, suggesting a possibility of a tumor originating from the left ureter. On ultrasonography, a 1.1 x 1.6 cm high-echoic area was observed in the retroperitoneal space, and the
