Visit: Visit: Visit: Or email to: [theblu@studio.synapse.me](mailto:theblu@studio.synapse.me) Or visit at Synapse... The Blu™ Aquarium Sim is an intuitive, amazing programmable aquarium. By integrating your Palm Tungsten T5 with the Blu's intuitive touch screen interface, you are now able to place your fish from your library into their own display, manage your aquariums, keepers, sensors, lights, and even control the fish themselves using unique touch and motion gestures. Along with this visual beauty, you will also experience a full featured ecosystem that includes a health station, food dispenser, and water pumps. No need to download and install your own aquarium as the Blu fish tank is completely self contained. The Blu will even create a free internet based web portal to view your fish tank information and monitor your ecosystem. When you're ready to view your fish tank, just tap the screen and your tank will appear. No more set up and tear down times, as the Blu automatically manages the tank for you. The Blu's built in web portal also provides users with more information about their fish. View your aquarium statistics, keepers information, and fish health as well as attach photos of your fish. With its single button interface that is extremely simple to use, without the need for complicated training, the Blu Aquarium is the perfect aquarium for everyone from beginning hobbyists to experts. This software is free and can be downloaded directly from the Palm website. The Blu® Aquarium Sim is only available for the Tungsten T5 and is incompatible with the Tungsten T3 and Tungsten E3. The Blu™ Aquarium Sim is an intuitive
