If you’re a fan of the series, I think you’ll like it a lot, especially for the price. A lot of people are complaining about what the new version of FIFA brings, and it’s not really that big a deal. Frankly, I had no idea that FIFA needed anything done to it. I’ve been playing it since its release on Playstation 2, I didn’t pay much attention until it was on DS and 360, and I really didn’t pay attention to the changes of the series after FIFA 13. So what you have to understand is that there are millions of players like

myself who are playing FIFA all the time. We don't see the changes, and most of us probably don't even realize that the series even has new features. MEMBER LOGIN
