Aki Komatsu, Super Aki Komatsu.. Domski's collection of some of the most beautiful women on the planet, in tribute to the idea that physical beauty is not the only measuring stick for human. Super Aki Komatsu In Japan, a match between two men is called the "Japanese Death Match" or "Derby". The earliest wrestling matches took place in January of 1912. The winner's right or left hand was wrapped in a cloth and he was swung around like a club. Another wrestling match was the "Blow Job Wrestling Match" where a man came in the ring with half of his body covered by a towel and the other half exposed. The wrestler would try to remove the towel, at which time the spectator would break it with the help of a softball bat. Japan, Inc., Japanese Entertainment and Music. Compare with Aki Komatsu. EDIT: I am not native english speaker and I just noticed that I answered to wrong questions. I think you want the first thing which is matched by the exact word. @*(Comp,Super);. Get string which begin with a space, one of the char in Comp and end with a space. Set the :%s/Comp/ /g That will remove Comp in every line and replace it with a blank space. @*(Comp,Super);. Get string which begin with a space, one of the char in Comp and end with a space. Set the :%s/Comp/ /g That will replace Comp with a newline character, and remove the white space in the begin of every line. @*(Super);. Get string which begin with a space, one of the char in Super and end with a space. Set the :%s/Super/ /g That will remove Super in every line and replace it with a blank space. CNN anchor Jim Sciutto held a town hall on July 20 with Michael Cohen, President Donald Trump's former personal attorney, hours after Cohen was sentenced to three years in prison for campaign finance violations, tax fraud, and lying to Congress. The event, which was held at Washington, D.C.'s Shaw Middle School, ended with Sciutto asking Cohen if he has a message for the American people. Cohen answered with a warning. "It's fair to say no one has made as much money as me over the last 20 years," Cohen said, noting that he's been "living beyond my means," but added that "there's a way to do that and an honorable way to do that." Cohen added: It's honorable to work at a job that you love and get good

Q: Returning an array from a function I have a function that is defined to use some arrays in a quick sort. If the array is null it should create one to start. I also have a method that returns a boolean value. Is there an easier way to return the array to main? Here is the code

```
public static double[] createArray(int upperBound, int lowerBound, int lowerBoundArray, boolean sorted) { double[] array1; double[] array2; if (sorted) array1 = new double[upperBound]; else array1 = new double[lowerBound]; return array1; } // Method to return an boolean value public static boolean isSorted() { return array2.length
```
