HD vs SD -Â .Chris Christie's path to a second term as New Jersey governor is growing clearer, with the Republican National Committee pledging its support on Monday. In a statement, the committee encouraged Christie to "immediately address the legislature's bipartisan, Republican defections to push through one-of-a-kind property tax reforms." The GOP establishment's endorsement of the governor comes as leaders of the legislature prepare to resume negotiations with him on reform plans. The panels have been in stalemate since early November, and lawmakers have so far not passed a reform package he has proposed. ADVERTISEMENT "The governor is one of the most effective, knowledgeable and hardworking governors in the country and he has long been endorsed by the Republican Party," said Reince Priebus, chairman of the RNC, in a statement. "We look forward to working with him and his team as they continue to get real, bipartisan reform done." The endorsement also comes as Christie, who is leading in the polls for the 2016 Republican presidential nomination, has taken a more combative tone with legislative leaders. In a blistering letter to the New Jersey Assembly speaker, Christie accused lawmakers of blocking a tax reform bill "with the sole purpose of enriching yourself, your family and your special interest allies" and promised he would "not be bullied" by the legislature. Christie's aggressive tone comes as some Republicans have begun to question his ability to get things done. The selection of Wisconsin Gov. Scott Walker to be the party's national convention keynote speaker has emboldened critics who say Walker is an effective executive but lacks the personal appeal and bully pulpit that Christie possesses.Q: Install of mysql to CentOS 7 Hosted on Azure Cloud My I want to install mysql database on my CentOS 7 cloud hosted on Azure, I have followed the following steps.
