Introduction Hello, I'm the producer of the FIFA franchise, and here are the most substantial changes to the game for FIFA 22. New Features The goalkeeper in FIFA is much more believable than before. The goalkeeper now has new mechanics, which are dependent on whether the goalkeeper is playing in goal or standing in an open position. The goalkeeper now jinks to defend the ball, move across the goal line and run through the goal. This is very realistic as players jink around when defending, during a foul or when attempting to make a run into the goal. In game you'll also notice the goalkeeper reacting to the ball differently based on the number of players around him. For example, if there's just one attacker and an open position, the goalkeeper will try to move to the attack and make the tackle, if there's two attackers and two defenders then the goalkeeper will try to move to close them down. Also, the goalkeeper can now make a lunging tackle or lunge for the ball, this will be used for the first time in FIFA 22.

## **Features Key:**

- High-Intensity Gameplay - Featuring HyperMotion Technology, all 22 players in every game move in amazing, realistic, and completely unscripted motions inspired by the incredible athleticism of the best football players on the planet. Manage your entire squad or play in quick matches, every single decision you make will impact the outcome of a game.
- Fan-Favorite Referee and Pitch Studio - Choose from four different, authentic, football-action-inspired referee kits. Create the perfect match for your upcoming fixtures and personalize your pitch with the new Pitch Studio. Now you can define your pitch using stickers that can be customized with fan-favorite team logos, flags, and stadiums, with over 1,200 unique elements included.
- Re-imagined Goalscoring System - It's inspired by the new shooting styles of today's most skillful attackers, with more frequent flicked shots toward the goal, combined with a brand-new calm dribble system that never puts a player offside.
- A+ Changing Weather - Embark on your journey in more than 2,000 different weather conditions throughout the world, from the heat of the southern United States to the chill of the north. With 6 manual weather settings, there is a perfect match for every match day.
- Animated Crowds - In every stadium you visit, an animated crowd will react to key moments during gameplay, just as they would during your matches. Over 50 crowd animations (with even more in development) add new depth and realism to every stadium.
- GIFTS - Now you can quickly build up your Ultimate Team collection with 10-A-Side, Quick Play, and Quick Decision matches. And it's easier to keep your star players happy when they realise the value of the new gift items. Plus, we've added Global Offers - there is an item that just can't wait to be unlocked... so you can now get a new item instantly. Watch out for a FREE\*\* FIFA Coin\* in August too!

Customize your Ultimate Team Pro to match your Pro's style. Pro Evolution Soccer (aka PES) PRODIGY Hi, my name is Blaise and I'm a huge sports fan, all kinds of different sports: football, tennis, athletics, hockey, netball, rugby league and cricket. I also love video games, both the sports and non-sports ones, I've played all ages and some of them probably for way too long and don't really take pleasure in them as much anymore. I have loved PC gaming since I first got into it and I recently started playing on consoles. My favorite console is the PS4, but I also have my face stuck to the Xbox One. PC is my first love and I don't think I will ever go to consoles. I'm not a fan of MMO's so I tend not to get around to playing them very much. At the moment I'm busy as a whole bunch of bees are about to swarm on my head.Q: Strange Artifacts with One-dimensional arrays I'm in the process of improving a form I've created and have run into a small issue. Here's the weird part: it works perfectly for any values of the finalPoints array, except for one. Here's my code. If you need more to help me solve this, let me know. Thanks. var latitude = 65.
