It is a powerful file cleaner which can eliminate unwanted files such as Adware, Spyware, Spam, Trojans, Worms, PUP's, Ransomware, Viruses, PNG or any other files that you want to erase. Data that can be deleted : Lists of files types, as well as digital photos, music, videos, documents, bookmark and other files that you can type or drag and drop into the "Remove items to be deleted" list. Note : Due to their large size, some files can not be instantaneously deleted and you will have to use the program and wait. Run it on any PC that you want to clean, or the computers that you visit. Eliminate all the annoying files by manually selecting the files you want to delete, or scan the whole PC, this program will also remove all viruses that are hidden or system files, enter a PC's computer history, delete Windows Registry entries related to your Web and Mail History, or it will remove the temporary files and/or shortcuts created for MS Office documents that you have opened in Microsoft Internet Explorer. Execute this application on any PC that has been infected and corrupted by malicious applications and tracking tools such as Adware, Spyware, trackers, bogus updates, toolbars, hijackers, malicious network drivers or any other potentially unwanted application or program. For those who want to clean the system, and while they can do so manually, they can use the automatic scan to fix Windows registry errors, clean the memory, download the latest Windows updates and even remove the applications related to each installed program such as spyware removal, game controls, automatic updates, device drivers, uninstallers and toolbars. Everything is optimized to work on Windows XP and newer. Many tools have been added over the years, so that the users can choose the programs and the options that they want. With the program, you can do whatever you want with the PC, and the programs that you want to remove. If you want to remove files or get rid of the programs that you no longer need, just have fun and use these features. To use this application, click on "Add items to be deleted". Or you can type or drag and drop the items that you want to remove into the box and press "Add files to be deleted". No matter what you want to do, the program will offer you all the options that you need.
