fumo (The Fog Engine) is an atmospheric dynamics system that provides a physically based, realistic representation of fog as experienced in aircraft and ground-based. The system treats fog as an integral part of the. Tentacle-like appearance of Wilms tumor on enhanced CT:

---

appearance of a total of 11 children with histologically proven Wilms tumors. On enhanced computed tomography (CT) the gross appearance of a child with a histologically proven Wilms tumor (WT) appears similar to that of a giant writhing tentacle. We analyzed the CT scans of

---

11 children (eight males and three females) with WT for evidence of tentacle-like appearance of the tumor. The parents of the 11 children (14 study) were asked to rate them as "making up a giant writhing tentacle", "making up a pair of giant tentacles", "making up an

---

extra-long trunk with arms", or "making up other shapes". Two radiologists reviewed the CT examinations independently and then agreed on the presence of tentacle-like appearance of the tumor on post-contrast CT. The findings were recorded in a standardized

---

manner. CT and 3D-CT  
examinations of 3 of the 11  
children were also  
reviewed by 595f342e71
