In this video you can see the different parts of the worlds : (Cities, COASTS, ANIMALS, TESTS).. If you have any problem to run this version of Lineage 2 C6.2.2. (Community) please. I put here the editcrest options of c6.2.2. (community)... and they say what to change where to change. l2 file edit c6 l2 file edit c6 l2 file edit c6 .2 and 'Interlude'. I would ask you not to use any product that does not come from main branch. I've tried to find l2, c5 or c6 with.2 only and see many many files of the clients I made. And here I'm hosting them so that you do not have to fight them. C6.2.1. (The console is made by ajaxangel and available in his site) : C6.2.2. (The FileEdit is an alternative made by bonfiremorpheus). This is where
