What's new:

- **FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data from professional footballers playing complete matches in motion capture suits to power player movement in the game. As such, the player’s ball might show a little bit of a different spin for example when dribbling.**
- **The ability to access all 18 stadiums in front of goal is now automatic - change the stadium lighting from the stadium lighting box. You’ll also receive an in-game audible notification when this happens.**
- **Net Player Ratings (NPR) - a statistical system that calculates player contributions based on a number of factors and is the driving force behind why players improve between seasons. It is expected to be one of the largest upgrades to the series since it was introduced to FIFA 15.**

FIFA is the world's No. 1 soccer simulation. Test your soccer skills with more than 350 authentic players, all rendered in beautiful stadiums and packed with real-world tactics and strategies. Master passing, shooting, and dribbling to score the goals that matter most. Feel the passion of every match through more emotion and responsiveness than ever before. Our Story EA SPORTS FIFA is the first-ever football simulation by Electronic Arts, created to be the definitive soccer game for athletes, coaches, fans, and gamers worldwide. Our commitment to innovation has not only helped define EA SPORTS FIFA, but it has also shaped Electronic Arts as a whole. And our passion to make FIFA better will be what keeps you coming back. The Team FIFA is a team sport. Before a single player takes the pitch, a team of people comes together to achieve success. From the designers who make the game characters to the programmers who work to make our data model run, everyone in our organization is a team member. Design Our games are built around the stories of athletes. Our athletes are inside their cars. Our athletes are behind the stage, in the crowd, and even on the pitch. We know every sport and every player, and we use that information to build the most in-depth sports game. We also work hand-in-hand with the athletes, coaches, and managers of the sport to give our game characters a deeper sense of personality and emotion. Development We don't just build a game; we build an ecosystem. Our iterative and incremental approach to development means that we always make the game better. We evolve and improve our game based on the results we see in our player community. We test, analyze, and fix. We try again. Our Team We want every club in every country represented in FIFA. We want a soccer game where we can play as ZIKA, AC MILAN, or LOS CABREROS. But we can only do that by working with you, our amazing fans, to get you excited about the game of soccer. We want your passion to be what keeps us working and striving to make FIFA better. So if you're part of our community, you're part of the FIFA family. We'll love you unconditionally and we'll make sure you feel a part of this FIFA with every game and every experience.
